Mumbai, Maharashtra | +91-9860158046 | kunalshah3@gmail.com | kunalshah3.github.io/Portfolio

SUMMARY

Senior software developer with 13+ years of experience delivering enterprise .NET solutions across financial services, education, reinsurance, and community platforms. Known for modernizing legacy WebForms applications, leading delivery teams, and shipping secure SQL Server and API-based systems with measurable business impact.

CORE SKILLS

Languages: C#, SQL Server, JavaScript, HTML5, CSS3

Frameworks: ASP.NET Core Web API, ASP.NET MVC, ASP.NET WebForms, React.js, jQuery, Bootstrap

Architecture: Microservices, REST APIs, legacy modernization, SDLC, financial systems, ERP, HRMS

Tools: Git, SVN, DevExpress, Crystal Reports, GitHub Copilot, Cursor.ai, Antigravity.ai, ChatGPT, Gemini, Perplexity

Security / Cloud: Azure Cognitive Services (Face API), OTP validation, session management, SHA256 encryption, CDAC-audited software

PROFESSIONAL EXPERIENCE

BSE Technologies Pvt. Ltd. | Assistant Vice President | Sep 2021 - Present

- Architected the core financial and accounting system for the Bombay Stock Exchange using SQL Server, C# WebForms, and .NET Core Web APIs.
- Delivered modules for purchase orders, GRN, AP/AR invoices, payments, and group company consolidation.
- Modernized legacy workflows and improved delivery speed by incorporating AI-assisted development tools into the SDLC.

Spine Technologies Pvt. Ltd. | Team Lead | Feb 2021 - Aug 2021

- Built a multi-tenant HR portal for employee profiles, attendance tracking, and client data segregation.
- Maintained a payroll engine for CTC-based salary calculation and monthly disbursement workflows.

Nine Square Solutions | Senior Software Developer | Jul 2018 - Jan 2021

- Developed a high-volume ICICI Bank printing inventory system for branch-level challan and invoice processing.
- Architected a CDAC-audited on-screen marking platform with Face API validation, OTP login, session blocking, and student masking.
- Built educational ERP modules for admissions, fees, examinations, notices, and results.

Tecogis Software Solution | Software Engineer | Mar 2016 - Jul 2018

- Delivered event and registration platforms, including the digital infrastructure for PlastIndia 2018.
- Built community portals such as Palanpur Online and translated client requirements into scalable web solutions.

J. B. Boda Reinsurance Brokers Pvt. Ltd. | Software Developer | Jul 2013 - Mar 2016

- Maintained the REIBS platform for finalized contracts, statements of account, claims management, and receipt generation.
- Supported accurate financial records and streamlined transaction processing in a regulated reinsurance environment.

Unigem (India) Pvt. Ltd. | Software Programmer | Aug 2012 - Jul 2013

- Managed account and payroll systems with a focus on financial accuracy and salary automation.

VIBE CODING PORTALS

Built through AI-assisted development workflows with Antigravity.ai and Cursor.ai, pairing human review with rapid implementation to ship production-ready products faster.

- SNVVS Community Portal - Public-facing ASP.NET Core CMS for Vastipatrak directory, Utthaan magazine, online forms, donations, and member services.
- SNVVS Admin Panel - Secure administrative backend for members, schemes, donations, announcements, and community operations with role-based access.
- SNVVS Mobile Application - iOS and Android member app for announcements, events, gallery, login, and donations.

EDUCATION

- MSc-IT, Mumbai University, 2009-2011
- BSc-IT, Mumbai University, 2006-2009
